

# Species Recording & Citizen Science signposting

**iWatch Wildlife** is the Island's species recording project supporting and encouraging communities to observe, record, share and enjoy nature.

If you would like to find out more about local citizen science / species recording news, surveys, events and ways to get involved then why not subscribe to 'Recording Now' – a quarterly e-newsletter.

(Click on the QR Code to sign-up)

SCAN ME

There are many other national surveys and citizen science initiatives that take place throughout the year such as Nature's Calendar, the Big Bird Watch and the Big Butterfly Count - see the '**Beginners Survey Calendar**' poster or scan the QR Code to the right.
